REASONS TO PARTICIPATE IN XANTAR

Xantar is the only fair about gastronomic tourism with an international stamp by the Government of Spain. Through 21 editions, it has bet by the promotion of agricultural quality and gourmet products, with a specific elaboration and a professional service. The objective is to involve the visitant in touristic marketing experiential actions. This new edition will come in November 2021, to be celebrated next to the Magosto, one of the more traditional popular fairs in Ourense.

These values have transformed the fair in a good point to position the enotouristic and gastronomic destinies, connecting the regions of the Iberian Peninsula with a guest country. The fair will produce new trade opportunities for professionals and will let present their promotions for the new year.

The trans-border cooperation through the active participation of different public and private entities of Portugal and the collaboration with Latin America will reinforce the international character of this event in Galicia, where gastronomy is one of its most valued aspects.
